FATHER LIGON AGAIN.

Mr. Ligon, Chairman of the Board of Supervisors, judging from his article in this paper last week, is dissatisfied with the results obtained from convict labor on our roads, although he does not say so. His views are entitled to careful consideration, because for many years he has given the road question much of his time and attention and as Chairman of the Board he is closely identified with the road work of the county. We would make a serious mistake in our road work if we let the convicts go at this time—with the unsettled condition of day labor which is hard to get at any price. We have just learned from a road builder that he is paying $3.40 per day for common labor on road work while our convict labor is not costing us as much as $1 per day. As a business proposition we say itwould be an unwise move to displace the convict force for free labor at any price.

Our Chairman puts this paper down as being satisfied with the whole thing and wanting more of it, including the new road leading to the editor's farm two miles south of town, but not through it. Pretty nearly correct. Though it is a fact that the editor lodged a protest against moving the convict force from this road until the road was graded over Cheatham's mountain, which would have given this important road a well-graded road to the Charlotte and Campbell line. These people are now asking that the convicts be allowed to do this work and say that cost will not exceed $1000 to complete the link of unfinished road. The editor also gave his labor and money on this road in addition to the right of way. Southside district would certainly be glad to have the convict force at the very earliest opportunity and the road money is in bank to pay for the work while our roads need the labor.

There are no flings at any one and Mr. Ligon does us an injustice when he says so. The road question is dear to our heart, as we believe it is to Mr. Ligon, and we make haste to assure him that we are still with him in all of his laudable and commendable efforts to administer the affairs of Appomattox county in a business and statesman like manner.

He has frequently been criticised for keeping the road from Hixburg to Pamplin, his road, in fine condition, while the roads in other parts of his district were in bad shape. We applauded this work for the good Hixburg road and urged work on the other roads of his district.

We have no quarrel with any man who is fighting for a better road from his home to market.

We applaud the enthusiastic service and effort of these citizens on the north side of Appomattox river who are bombarding the political forts holding the great National location in this county. Unless Pamplin, Evergreen and Appomattox get loaded up and with heavy guns they will not be in reach of the National highway—in fact it is said by some to be already settled. Seventy-five per cent of the people of the county would favor the route as originally adopted, by mass meeting here, ratified by the Board of Supervisors and tentatively approved by the State Highway Commissioner.

Now, as a political proposition, we want to know how our present delegate and candidates for the General Assembly stand on the location of the National Highway. This is the livest issue presented to the people of this county in years.

It effects and involves the entire road system of our county.

Altogether for road improvement in Appomattox; discuss the plan and location; it will do good.

After a century of waiting are you ready to go to work.

Let the people act.

A National Duty

The treasury of the United States has a great deal of money to raise and it cannot be raised by bankers alone, says Secretary McAdoo. The banks of this country cannot alone sustain America's needs in this war and extend to our allies the essential aid which they must have to pay the war debt.

The rich of this country can not do it alone; the men of this country cannot do it alone; the women of this country cannot do it alone; but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determined to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

Let's buy another bond!

Keep Troubles to Yourself.

Life for the vast majority of us is none too carefree. This trouble, or that disappointment, makes our world very cheerless at times; but dwelling upon our problems, elaborating upon our difficulties, or longing to share those unpleasant realities with others, will not aid us one iota. We, each, individually, must stand our own ground, and, if we are wise, refuse to be influenced by any unproductive moods.

Matters Not to Be Discussed.

Of this fact we may all rest assured: The quieter we keep about ourselves, our affairs, pleasant or otherwise, the better it will be for us. Time is at a premium these days, and if we hope to surmount our difficulties, no matter how trying they may be, we must wisely learn to keep each and every one of those problems in the background.

MADE FIGHT FOR FREEDOM

British Army Deserter Showed Daring and Originality in Making His Escape From Prisons.

Three daring escapes made by a British army deserter with ten convictions against him—all for crimes of violence—were described at Oldstreet a few days ago, relates London Chronicle. The man, George Mullins, was sentenced to six months' imprisonment in January, 1917, and was sent to Wandsworth. There he was trained for the army and taken to France in handcuffs. In a few weeks he contrived to get leave and, returning to England, deserted. He was arrested last April, but, although handcuffed, he escaped from his escort. After a brief spell of liberty Mullins was again captured, and with five others was put in the guardroom at Wandsworth prison. While the others danced and sang at the top of their voices Mullins cut a hole in the wall and all the six escaped. In the following May the man was again arrested, and taken this time to Bethnal Green police station, where he was placed in a newly built cell. Again he managed to escape by loosening a number of bricks, climbing through a ventilator and dropping down a water pipe into the street. The other night Mullins was arrested by Detective Sharp in Stepney. A big and violent crowd, the officer said, gathered and pelted the detective and his colleagues with stones, weights, coal, bottles and "anything they could lay their hands on." The police, however, got away. Mullins is now sentenced to two months' hard labor as a deserter and for damaging Bethnal Green police station.

EPIGRAM THAT HAS FORCE

Terse Statement as to Value of Man in the World's Commercial Operations.

There is a moral for all who will seek it in the story of a Minnesota banker, who has made a success of life notwithstanding the handicap that both legs, his left arm and the fingers of his right hand are missing. His career was appropriately reviewed in Carry On, a magazine published in the interest of the reconstruction of disabled soldiers and sailors.

The essence of this man's success is contained in his whimsical statement of his philosophy. "From his neck down," he says, "a man is worth about a dollar and a half a day; from his neck up he may be worth a hundred thousand dollars a year." The facts of this statement apply as forcibly to a man with all his limbs as to a cripple. They constitute the chief reason why vocational education is increasing in popularity and why child labor and compulsory education laws are being made increasingly severe.

It is a fortunate epigram which has been made by this cripple of peace for the benefit of the cripples of war. The part of the man "from the neck up" knows no limitations except self-imposed ones.—Portland Oregonian.

"What helped you over the great obstacles of life?" was asked a successful man. "The other obstacles," said he

There's a hint. Do not recognize difficulties as obstacles, but as a means of showing your power. For instance, take the financial phase:—

Are your habits stumbling blocks or stepping stones?
Are you haphazard or business-like?
Are you paying your bills in cash or by check?
Are you extravagant or frugal?
Are you securing the best service from your bank?

Think about it. Are you getting all you are entitled to? It depends upon yourself, you know.
